

Invitation

Dear Prof. Ying Shen,

2021 IEEE/OES China Ocean Acoustics Conference (COA2021: <http://www.chinaoceanacoustics.cn/>) will be held from 14th July to 17th July, 2021 at the Qihang Activity Center, located at Harbin Engineering University.

The conference is sponsored by IEEE/OES (IEEE Oceanic Engineering Society) and hosted by Harbin Engineering University. It is estimated that 280 papers will be submitted and about 350 people will attend the conference.

As the second international conference after COA2016, the conference is an international cooperation and exchange platform for high-level research in the field of marine acoustics between China and the world. The topics of the conference involve many aspects of marine acoustic science and related scientific research and engineering technology. The purpose of the conference is to discuss and share domestic and international frontier research topics, research progress and achievements through extensive academic exchanges among experts, young talents and students, promote close cooperation and technical information exchange among peers, promote the development of marine acoustics theory, technology and specialty, and explore new trends and new hotspots in the development of marine acoustics, and create new opportunities for cooperation.

In view of your profound attainments and academic reputation in this field, I sincerely invite you to participate in the conference as a session chair of sub topic: **Underwater non-acoustic detection and communication**. Could you please send a photo and a 100 word English profile which will be edited into conference agenda? Thank you for your support!

Looking forward to your coming!

Prof. YANG Desen
Chairman

2021 IEEE/OES China Ocean Acoustics Conference
